EXPERTISE

Front end:

- HTML, CSS, Javascript
- React, Redux, React Query
- Next
- Angular

Back end:

- Node, NestJS, Prisma
- Restful API

Database

- Postgre

Version Control

- Git

LANGUAGES

- English (Intermediate)
- Vietnamese (Native)

EDUCATION

2018 - 2022 GPA 3.37

Bachelor Degree

Information technology

Duy Tan University

PROFILE

I'm an energetic and hopeful software engineer. I am primarily a Web Developer focusing on React and other support libraries Redux, React Query, Vite, Node, etc. I have around 3 years of experience as a software engineer. My strong points are working independently, being interactive, proactive, and being willing to learn. Besides, I am eager to be challenged to grow and improve my skills so that I contribute the best to the company.

WORK EXPERIENCE

DATAHOUSE ASIA 2021 - PRESENT

Medior Software Engineer

Jan - 2024 - Present

- Review the code with a support team member
